

SEO: It's Top 30... or It's Nothing!

It's a fact: Most people will hardly look beyond the first 30 links returned after they run a search on the engines, and hardly anyone looks beyond the first three pages of search results. If your site is not within the top 30, your potential clients will not know you exist!

Submitting your web site to search engines does not ensure you targeted web site traffic. If you're listed but not within the top 30 of search results, you lose, no matter how many search engines to which you submitted your site. A top 30 ranking in a major search engine will often generate more targeted traffic than an expensive banner advertising campaign. A top search engine position is like highly targeted advertising that is both free and effective.

Affordable Search Engine Optimization

You no longer have to pay exorbitant fees to obtain top rankings. Our optimization plans are affordable and designed to accommodate most needs and budgets. Why spend thousands of dollars when you can have the same results for much less?

We offer three professional SEO plans for you to choose from:

TOP 30 SEO Plan: **\$1,675** (Regular \$1,807)
TOP 10 SEO Plan: **\$1,999** (Regular \$2,887)

Above pricings are One Time Charge; No monthly fee

Below is the summarized process of our Search Engine Optimization services.

1. When you sign up for your program, we will ask you to suggest a few keyword phrases you would like to use. We will analyze the keywords you provided and if necessary we will advise and help you to create a list of keyword phrases relevant to your business. We ensure that the keyword phrases selected are being searched by interested prospects within your niche. This is confirmed by researching sites such as overture & pay-per-click ratings within your particular niche.

2. Your web site will be closely reviewed to identify possible trouble spots. Many web pages are designed with inherent roadblocks that affect search results (i.e. improper meta tags, improper use of flash, etc). We can help you identify these trouble spots on your main page and fix these barriers for more effective optimization.
3. We will optimize the most important page of your web site (usually the main page – although upon request we can work with any page you choose) and create targeted, optimized META tags including title, keyword, description, and ALT tags.
4. We will custom tailor up to three submission pages which will be professionally optimized and designed to get top rankings in all the search engines for your keywords.
5. A robots.txt file will be created, so the search engine spiders are able to crawl your site with ease. Robots.txt is a file on your web site in the root directory that is used to control which search engine spiders or robots have access to which pages within a web site. **Some search engine spiders will not even spider your web site if they do not find a robots.txt file.**
6. Once we have created the optimized pages and robots.txt file, we will send you the files along with detailed instructions on how these pages are to be uploaded to your site. If you prefer, we can upload these files for you.
7. Once the pages have been uploaded, we will hand submit your site to 25 major search engines. These top engines generate 95% of search engine traffic.
8. Your URL will be indexed and listed in Yahoo, Google and many others within 7 business days.
9. Your site will also be submitted to 230 search engines and directories worldwide for maximum exposure.
10. We install linkmachine so you can manage your entire backlinking process easily (www.linkmachine.net). This software allows you to define and contact other sites within your niche so you can exchange links. More importantly, the software allows you to monitor at all times all of the sites linking to you (and you can send emails to any new sites at anytime through the software)
11. At the end of three months from the time we receive your order, we will review the positions of your site in the search engines and directories, and send you a detailed ranking report using [AgentWebRanking](#) (one of the most trusted independent SEO monitoring programs in the SEO industry).
12. If we don't meet our commitment, we will refund your money according to our money back guarantee.

Which Search Engines?:

Your website (main/ index page) will be initially submitted to the following 25 major search engines. These major engines generate approximately 95% of all relevant search engine traffic.

Your SEO Investment is 100% Guaranteed!

If we do not perform, we will refund your money. It's that simple. Depending on which plan you choose, Person to Person Direct **guarantees** you a certain number of Top 10 or Top 30 ranks in the major search engines. Even just one top ranking in a search engine can result in significant numbers of unique visitors to your site. Our guarantee is summarized below:

SEO Plan	Number of Keyword chosen	Number of Ranks Guaranteed
Silver - Top 10	10	10 Top10 ranks*
Silver - Top 30	10	10 Top30 ranks*
Gold - Top 10	15	15 Top10 ranks*
Gold - Top 30	15	15 Top30 ranks*
Platinum - Top 10	20	20 Top10 ranks*
Platinum - Top 30	20	20 Top30 ranks*

*** We also guarantee more than half of this ranking number will appear on Google, Yahoo, and MSN.**

For example, if we guaranteed you 20 Top10 ranks, and we achieve only 16 Top10 ranks in the agreed upon period, then we will give you a prorated amount back. In this example, you would get 20% of your money back. If we exceed the guaranteed number of ranks, you don't have to pay us extra.

We look forward to providing your company with the results necessary for building a highly successful Internet business.

01/04/2008

After 90 days we can establish a maintenance plan in order to maintain these rankings top rankings. Our maintenance plans typically cost 25%-35% less than the initial ranking fees. A more detailed estimate can be provided once the initial SEO produces results.

Q: How long does it take to get results?

A: Your URL will be indexed and listed in the Inktomi search index within 7 days. The Inktomi network includes sites such as Yahoo, MSN, Hotbot, About and many others. You should start to see traffic within 96 hours of submission. For the others, it is entirely up to each search engine; some of them can take 4-12 weeks or longer.

The time frame for respectable results is 1-3 months from the initial indexing.

Q: How about your competitors who claim to submit to thousands of search engines?

A: First off, there are simply not “thousands” of search engines to which to submit. In addition, these types of automated search engine submissions will most likely not result in the web traffic you are looking for, but they excel at getting you thousands of pieces of unsolicited e-mail. Most of the submissions are to a large number of Free For All (FFA) sites. Submitting your site to FFA pages can actually damage your site's reputation in the search engines, because many search engines consider this to be SPAM, and it could actually penalize your website ranking.

Please take the time to review our SEO results and various 1st page/ 1st position rankings, below:

inforecordsearch.com

Alexa	1st page and 1st Position on “felony record check” 1 st page and 3 rd Position on “state criminal search” 1 st page and 5 th Position on “federal criminal search” 1 st page and 6 th Position on “nationwide criminal search”
